21-hydroxylase gene and its polymorphic analysis as a candidate gene for congenital adrenal hyperplasia-like syndrome in Pomeranians, Cloning of canine 159

Accuracy of the i-STAT portable analyser for measuring blood gases and pH in whole-blood samples from dogs, The 71
Adrenal hyperplasia-like syndrome in Pomeranians, Cloning of canine 21-hydroxylase gene and its polymorphic analysis as a candidate gene for congenital 159
Aflatoxin (50 and 100 ppb) and clinoptilolite exposure, Evaluation of biochemical characters of broiler chickens during dietary 101
Application of nucleic acid vaccines in veterinary medicine, The (R) 9
Avian model of limb deviation induced by periosteal surgery, An 562

Blood plasma concentrations of oestradiol-17 beta, testosterone and testosterone/oestradiol ratio in dogs with neoplastic and degenerative testicular disease 589
Bovine spongiform encephalopathy infection, Plasma metabolites indicate energy metabolism disruption during the preclinical phase of 191

Calmette Guérin vaccine in wild brushtail possums (*Trichosurus vulpecula*), The efficacy of bacilli 145
Castration, Effects of local anaesthesia or local anaesthesia plus a non-steroidal anti-inflammatory drug on the acute cortisol response of calves to five different methods of 61
Changes in activities of enzymes related to energy metabolism in peripheral leukocytes of diabetic dogs with glycemic control by intensive insulin treatment 183
Changes in the doppler waveform of the ovine femoral artery following infusion of vasoactive agents: a preliminary study 528
Clinoptilolite exposure, Evaluation of biochemical characters of broiler chickens during dietary aflatoxin (50 and 100 ppb) and 101
Cloning of canine 21-hydroxylase gene and its polymorphic analysis as a candidate gene for congenital adrenal hyperplasia-like syndrome in Pomeranians 159
Commercial variants of the prothrombin time test as a screening test of acquired coagulation factor II, VII, and X deficiencies in dogs 165
Comparative kinetic study of thiamphenicol in preruminant lambs and calves, A 599
Cooperia punctata, A family of activation-associated secreted protein (ASP) homologues of 600

Determination of isphenol A in canned pet foods 177
Diabetic dogs with glycemic control by intensive insulin treatment, Changes in activities of enzymes related to energy metabolism in peripheral leukocytes of 183
Digital dermatitis in four UK dairy herds, Some relationships between spirochaete infections and 552
Disposition kinetics of tylosin administered intravenously and intramuscularly to pigs 141
Distribution of the hyaluronate lyase encoding gene *hyl*B and the insertion element is*1548* in streptococci of serological group B isolated from animals and humans 131
Dosage regimen for antibiotics, The pharmacokinetic–pharmacodynamic approach to a rational 105

Effects of a P2Y12 receptor antagonist on the response of equine platelets to ADP. Comparison with human platelets 171
Effects of local anaesthesia or local anaesthesia plus a non-steroidal anti-inflammatory drug on the acute cortisol response of calves to five different methods of castration 61
Efficacy of bacilli Calmette Guérin vaccine in wild brushtail possums (*Trichosurus vulpecula*), The 145
Elephant (*Elephas maximus*) Medetomidine – a novel immobilizing agent for the (SC) 571
Endometrial gland surface area and volume in cycling cows and heifers, Quantitative unbiased estimates of 587
Escherichia coli serotypes associated with avian colisepticaemia, Virulence factors of (R) 27
Evaluation of biochemical characters of broiler chickens during dietary aflatoxin (50 and 100 ppb) and clinoptilolite exposure 101
Experimental induction of pneumonic pasteurellosis in calves by intratracheal infection with *Pasteurella multocida* biotype A:3 37

Family of activation-associated secreted protein (ASP) homologues of *Cooperia punctata*, A 600
Fatty acid composition of serum lipids in atopic and healthy dogs 153
Feeding diets supplemented with zinc and vitamin A in laying hens: effects on histopathological findings and tissue mineral contents 584
Feline assay using osteoclasts generated in vitro from peripheral blood for screening anti-resportive agents, A 598
Femoral artery following infusion of vasoactive agents: a preliminary study, Changes in the doppler waveform of the ovine 528
Foot and mouth disease (R) 594
Foot and mouth disease epidemic of 2001: strengths and weaknesses, Mathematical modelling of the (R) 595
Frequency of superantigen-producing *Staphylococcus intermedius* isolates from canine pyoderma and proliferation-inducing potential of superantigens in dogs 596

Genetic aspects of Labrador Retriever myopathy 561
Genomic relationships among rotaviruses from various species as revealed by RNA–RNA hybridization assays (R) 586

Hyaluronate lyase encoding gene *hyl*B and the insertion element is*1548* in streptococci of serological group B isolated from animals and humans, Distribution of the 131

Insulin treatment, Changes in activities of enzymes related to energy metabolism in peripheral leukocytes of diabetic dogs with glycemic control by intensive 183
Insulinotropic properties of *Nigella sativa* oil in streptozotocin plus nicotinamide diabetic hamster 597
Is*1548* in streptococci of serological group B isolated from animals and humans, Distribution of the hyaluronate lyase encoding gene *hyl*B and the insertion element 131
Isphenol A in canned pet foods, Determination of 177
i-STAT portable analyser for measuring blood gases and pH in whole-blood samples from dogs, The accuracy of the 71

Labrador Retriever myopathy, Genetic aspects of 561
Leptospirosis antibodies in mammals from Rio de Janeiro zoo, Brazil 588
Limb deviation induced by periosteal surgery, An avian model of 562

Mammary carcinomas, Multiparametric survival analysis of histological stage and proliferative activity in feline 53
Mathematical modelling of the foot and mouth disease epidemic of 2001: strengths and weaknesses (R) 595
Medetomidine – a novel immobilizing agent for the elephant (*Elephas maximus*) (SC) 571
Melanocytic tumours: correlation with histological parameters, location, and clinical behaviour, Proliferation activity in oral and cutaneous canine 46
Multiparametric survival analysis of histological stage and proliferative activity in feline mammary carcinomas 53

Neospora caninum, Serological investigation of aborted sheep and pigs for infection by 187
Nigella sativa oil in streptozotocin plus nicotinamide diabetic hamster, Insulinotropic properties of 597
Nucleic acid vaccines in veterinary medicine, The application of (R) 9

Osteoclasts generated in vitro from peripheral blood for screening anti-resportive agents, A feline assay using 598
Osteological features in pure-bred dogs predisposing to thoracic or lumbar spinal cord compression 87

P2Y12 receptor antagonist on the response of equine platelets to ADP. Comparison with human platelets, Effects of a 171
Pasteurella multocida biotype A:3, Experimental induction of pneumonic pasteurellosis in calves by intratracheal infection with 37
Periosteal surgery, An avian model of limb deviation induced by 562
Pharmacokinetic–pharmacodynamic approach to a rational dosage regimen for antibiotics, The 105
Plasma metabolites indicate energy metabolism disruption during the preclinical phase of bovine spongiform encephalopathy infection 191
Possums (*Trichosurus vulpecula*), The efficacy of bacilli Calmette Guérin vaccine in wild brushtail 145
Prion protein (PrP) gene polymorphisms associated with natural scrapie cases and their flock-mates in Ireland 579
Proliferation activity in oral and cutaneous canine melanocytic tumours: correlation with histological parameters, location, and clinical behaviour 46
Proteoglycans: the role of tenascin and proteoglycans in canine tumours, Tenascin and (R) 1
Prothrombin time test as a screening test of acquired coagulation factor II, VII, and X deficiencies in dogs, Commercial variants of the 165
Pyoderma and proliferation-inducing potential of superantigens in dogs, Frequency of superantigen-producing *Staphylococcus intermedius* isolates from canine 596

Quails, vitamin E supplementation alleviates stress in 601
Quantitative unbiased estimates of endometrial gland surface area and volume in cycling cows and heifers 587

Rabies: recent developments (R) 17
RNA–RNA hybridization assays, Genomic relationships among rotaviruses from various species as revealed by (R) 586
Rotaviruses from various species as revealed by RNA–RNA hybridization assays, Genomic relationships among (R) 586

Salmonella by ERIC-PCR, Strain differentiates of Indian isolates of (SC) 557
Scrapie cases and their flock-mates in Ireland, Prion protein (PrP) gene polymorphisms associated with natural 579
Serological investigation of aborted sheep and pigs for infection by *Neospora caninum* 187
Some relationships between spirochaete infections and digital dermatitis in four UK dairy herds 552
Spinal cord compression, Osteological features in pure-bred dogs predisposing to thoracic or lumbar 87
Spirochaete infections and digital dermatitis in four UK dairy herds, Some relationships between 552
Staphylococcus intermedius isolates from canine pyoderma and proliferation-inducing potential of superantigens in dogs, Frequency of superantigen-producing 596
Strain differentiates of Indian isolates of Salmonella by ERIC-PCR (SC) 557

Tenascin and proteoglycans: the role of tenascin and proteoglycans in canine tumours (R) 1
Testicular disease, Blood plasma concentrations of oestradiol-17 beta, testosterone and testosterone/oestradiol ratio in dogs with neoplastic and degenerative 589
Thiamphenicol in preruminant lambs and calves, A comparative kinetic study of 599
Tylosin administered intravenously and intramuscularly to pigs, Disposition kinetics of 141
Tylosin deprivation from edible pig tissues (SC) 590

Virulence factors of *Escherichia coli* serotypes associated with avian colisepticaemia (R) 27
Vitamin E supplementation alleviates stress in quails 601

Zinc and vitamin A in laying hens: effects on histopathological findings and tissue mineral contents, Feeding diets supplemented with 584
